ISLANDWIDE ADVISORY FROM AS-EPA

Please be advised that the American Samoa Environmental Protection Agency (AS-EPA) has suspended routine sampling of recreational beaches due to **CODE RED** Threat Level designation under the current Declaration of Ongoing Public Health Emergency and State of Emergency for COVID-19. Weekly beach advisories will not be issued until further notice. AS-EPA will notify the general public once sampling for recreational beaches resumes.

The AS-EPA will continue to provide regulatory monitoring of ASPA's public water system and water vending machines across American Samoa. Drinking water monitoring is essential to ensure potable water for public consumption.

For more information, please contact AS-EPA at 633-2304.
