- American Samoa Power Authority (ASPA)

Tafuna Elementary School

South Pacific Academy

Pacific Horizons School

Manu'a High School

We would like to especially thank our Honorable Governor Lolo Matalasi Moliga for your endless support on all drinking water related projects in Tutuila. It is our sincere hope that we continue to conserve and preserve such natural resource for our future generations as life is heavily dependent on this freely given resource.

Let us value the importance of our drinking water resources as these efforts are vital to American Samoa's economy and to the public health of our citizens. Our drinking water is our responsibility. Let's work together to protect our drinking water for a better tomorrow!

Fa'afetai Tele Lava

AS-EPA Director Ameko Pato & Staff
